

A basic plan for piloting and implementing RPA

A basic plan for piloting RPA

- There are typically 5 steps in a basic RPA implementation project

Step 1:
**Identify, evaluate
and prioritize
processes**

Step 2:
**Describe
process(es)**

Step 3:
**Design, develop
and test**

Step 4:
**Implement
process(es)**

Step 5:
**Monitoring and
Continuous
Improvement**
