Step 1:
Identify, evaluate
and prioritize
processes

Step 2:
Describe
process(es)

Step 3:
Design, develop
and test

Step 4:
Implement
process(es)

Step 5:
Monitoring and
Continuous
Improvement

Step 4: Implement process(es)

Step 1:
Identify, evaluate
and prioritize
processes

Step 2:
Describe
process(es)

Step 3:
Design, develop
and test

Step 4:
Implement
process(es)

Step 5:
Monitoring and
Continuous
Improvement

Implement process(es)

◉ Automated process(es) is published!

◉ Run from UiPath Studio, UiPath Assistant/Robot or from UiPath Orchestrator

◉ Schedule processes:
  ○ Queue trigger (event)
  ○ Time trigger (schedule)

Step 1:
Identify, evaluate
and prioritize
processes

Step 2:
Describe
process(es)

Step 3:
Design, develop
and test

Step 4:
Implement
process(es)

Step 5:
Monitoring and
Continuous
Improvement

Time triggers

◉ "At 17:00 on every day-of-week from Monday through Friday"

0	0	17	*	*	1-5
second	minute	hour	day (month)	month	day week
