Welcome to the very first section of this course! I hope you are excited to learn more about RPA. Definitely one of my favourite topics personally 😃

In this section, we will cover:

- What RPA is and how it works
- RPA capabilities
- Why RPA is so relevant right now
- Pros and cons of the RPA technology
- What vendors our out there
- A case study

At the end of this section, you will be able to:

- Explain what Robotic Process Automation (RPA) is
- Explain how RPA works
- Explain why RPA is a hot topic right now
- Explain what the pros and cons of the technology are
- Navigate the RPA vendor landscape

Later course sections include:

- Build your first robot! *(Covering the UiPath Platform, installing UiPath Studio, getting to know the UiPath Studio user interface and building a simple robot)*
- Pilot RPA in your enterprise *(Covering a 5-step basic plan for piloting and implementing RPA, creating an RPA Center of Excellence (CoE), critical success factors to succeed with an RPA initiative and more real-world applications of RPA)*
- Further Learning *(Covering what you can do next to further improve your RPA skills, whether as an RPA Developer or Project Manager)*

Let's go! Onwards and upwards 🚀
